## WHAT IS IGNITE?

IGNITE is an online training and mentoring program for OTs, PTs and SLPs who specialize in the field of neonatal therapy. The IGNITE Program is a 10 month self-paced on-demand program offering 13 video-recorded webinars, live monthly mentoring calls, and tangible tools and resources.

Therapists seeking training and mentoring OR mentors who would benefit from having mentees receive this training will find the IGNITE Program incredibly valuable.

## WHY DO I NEED IGNITE?

### A New Solution

The industry gold standard is 1:1 mentoring by an experienced and highly-trained neonatal therapist, yet NANT receives hundreds of emails from neonatal therapists with NO ACCESS to such a person.

In fact, only 15% of neonatal therapists surveyed in 2013 said they were mentored for greater than 6 months, while 36% had no direct mentorship at all. (Sturdivant, C. 2013.) Since neonatal therapy is an advanced practice area, we simply must do better.

IGNITE is striving for better – and we hope you'll join us.

## What You Will Learn

### 10 MONTH PROGRAM May through March

On-Ramp Module	Defining Neonatal Therapy (NT)
Training Module #01	Implementing a Successful Neonatal Therapy Program
Training Module #02	Theories & Models of Practice in the NICU
Training Module #03	FENNS-Family & Environment
Training Module #04	The Neurobehavioral System
Training Module #05	The Neuromotor System
Training Module #06	The Sensory System
Training Module #07	The Neurobehavioral System Assessment & Intervention
Mid-Term Learning Assessment	
Training Module #08	Family Assessment & Intervention
Training Module #09	Neuromotor Assessment & Interventions
Training Module #10	Environment & Sensory Assessment & Interventions
Training Module #11	Feeding Basics in the NICU
Training Module #12	Putting it All Together, Neonatal Therapy Interventions
Training Module #13	Instrumental Feeding Assessments & Managing Dysphagia in the NICU

Final Learning Assessment

## What to Expect

### IGNITE INCLUDES:

- On-ramp resource pack
- 13 online peer-reviewed training modules
- 9 group guidance calls with mentors
- Exclusive online resource area
- Private Facebook group
- Mid-term and final learning assessment
- 16 contact hours (1.6 CEUs) for completed trainings
- Multidisciplinary guest presenters

THERE WAS A TIME WHEN WE,  
AS NEONATAL THERAPISTS, WERE ALONE WITHOUT  
CONNECTION, RESOURCES AND VALIDATION.  
A TIME WHEN WE HAD TO CREATE EVERY SINGLE  
NUANCE OF OUR PROGRAMS WITHOUT GUIDANCE.  
**THAT TIME IS OVER.**

### YOU WILL EXPERIENCE:

- Connection vs isolation
- Confidence
- Momentum
- Structure and guidelines for ongoing successful practice
- Relief that your practice is consistent with the standards NANT defines for neonatal therapy
